

2022 DUTY TO WARN REBATE

This rebate is designed to reimburse a propane dealer for expenses associated with their annual propane safety duty to warn mailing. Marketers that participate in this important safety mailing will be reimbursed by the PPGA up to \$500 per location (up to \$5,000 in Hawaii). To ensure a consistent message is being sent to propane customers across the state, two brochures produced by PERC will be eligible for this rebate:

- “Important Propane Safety Information for You and Your Family” brochure (PRC-003121 or PRC-003121S), either in English or Spanish; or
- the “Propane Safety Booklet” (PRC-005606 or PRC-005606S), also in English or Spanish.

These are available by ordering directly from our endorsed affinity partner, P3 Duty to Warn at propanedtw.com/pacific-pga.

The following conditions will apply to this rebate:

1. Propane dealer must have retail locations in the states of Alaska, Hawaii, Oregon or Washington.
2. Rebate is limited to \$500.00 per location.
3. Requests for rebates will be processed on a first come, first served basis. Rebate period ends December 31, 2022, or **until funds are exhausted.**
4. Proof of mailing must include receipt for materials ordered and/or proof of mailing (P3 Duty to Warn certificate of completion or receipt from post office). Purchase amount must be included on receipts.
